

SOMU MANDAL

Aspiring Frontend Web Developer

somumandal1109@gmail.com | +91 85099 24341 | West Bengal, India | github.com/somu1109

OBJECTIVE

Final-year B.Tech (CSE) student focused on frontend web development, with hands-on experience building responsive, interactive interfaces using HTML, CSS, JavaScript, and React. Comfortable learning independently and looking for an opportunity to contribute to real-world products as a frontend / React developer.

EDUCATION

B.Tech in Computer Science & Engineering

4th Year (Final Year)

NSHM Knowledge Campus

TECHNICAL SKILLS

- Languages & Web Fundamentals: HTML5, CSS3, JavaScript (ES6+)
- Frontend Framework: React.js (components, hooks, state management, routing)
- Currently learning: Next.js, Redux
- Version Control: Git & GitHub
- Other: Responsive design, UI animations, component-based architecture
- In progress: Backend fundamentals (Node.js, Express, MongoDB)

PROJECTS

Personal Interactive Website — React.js

- Built a fully responsive, animation-rich website in React with a custom image gallery, calendar-based to-do list, and a live day-counter component.
- Implemented a lightweight authentication (login) flow and interactive UI elements with custom CSS animations.
- Designed a cohesive custom visual theme, including typography and color palette, from scratch.

Shopnest — E-commerce Website (React.js) github.com/somu1109/Shopnest

- Built a multi-page, frontend-only e-commerce website using React and React Router, with reusable components and per-component styling.
- Integrated the DummyJSON API for product data, Unsplash API for imagery, Supabase for authentication, and Razorpay for payment handling.
- Implemented protected routes so account and checkout pages require login, and added a dashboard tracking monthly order count and time spent in the app.

STRENGTHS

- Strong self-learner — able to pick up unfamiliar tools and concepts independently.
- Detail-oriented with a focus on clean, responsive UI implementation.
- Currently building toward full-stack capability by adding backend skills to an existing frontend foundation.

LANGUAGES

Bengali (Native), English (Professional Working Proficiency), Hindi
