SOMU MANDAL

Aspiring Frontend Web Developer

somumandal1109@gmail.com | +91 85099 24341 | West Bengal, India

GitHub: github.com/somu1109 | Portfolio: somumandal.netlify.app

OBJECTIVE

Final-year B.Tech CSE student looking for a frontend or React developer role. I build responsive websites with React and I am learning Node.js and Express to work on the full stack.

EDUCATION

B.Tech in Computer Science & Engineering, NSHM Knowledge Campus — Final Year

TECHNICAL SKILLS

Programming Languages	C, JavaScript (ES6+)
Web Technologies	HTML5, CSS3, responsive design, UI animations
Frontend	React.js (components, hooks, state management, routing), React Router
Backend (learning)	Node.js, Express.js, MongoDB
Also learning	Next.js, Redux
Tools	Git, GitHub
APIs & Services	REST APIs, Supabase (authentication), Razorpay (payments)

PROJECTS

Notivo - Productivity, Focus & Water Tracker (React.js) — Live site

- Built an all-in-one app that combines a study timer, daily tasks, goals and a water tracker in one place, using React, Vite and React Router.
- Added a weekly analytics dashboard with Recharts and a PDF report export with jsPDF.
- Used browser notifications for water reminders. All data is stored in the browser, so no login or server is needed.

Shopnest - E-commerce Website (React.js) — github.com/somu1109/Shopnest

- Built a multi-page e-commerce site with React and React Router, using reusable components.
- Used the DummyJSON API for products, Unsplash API for images, Supabase for login and Razorpay for payments.
- Added protected routes so account and checkout pages need a login, and a dashboard for monthly orders and time spent in the app.

Personal Interactive Website (React.js)

- Built a responsive website with an image gallery, a calendar-based to-do list and a live day counter.
- Added a simple login flow, custom CSS animations, and a custom colour theme and typography.

Personal Portfolio Website — Live site

- Designed and built my own portfolio to show my projects and skills, and deployed it on Netlify.

CORE SUBJECTS

Computer Networks (CN), Computer Architecture (CA)

STRENGTHS

- Learns new tools quickly and on my own.
- Pays attention to detail and focuses on clean, responsive UI.
- Adding backend skills to my frontend base to grow into a full-stack developer.

LANGUAGES

Bengali (Native), English (Professional Working Proficiency), Hindi
